

Booking **easyJet** is now simpler than ever!

Have you tried booking easyJet via the Sabre System?

Did you know that booking easyJet within Sabre is on average over **4 times quicker** compared to booking via the website?

Check out our new training videos which take you through the 5 simple steps to make a reservation, now available in the [easyJet Community](#) on Agency eServices.

(if you get the error "error codec" or you can not see the video you need the TSCC codec. TechSmith Screen Capture Codec (TSCC) is available at <http://download.techsmith.com/tscc/tscc.exe>)

Or why not sign up for a training class scheduled for the **6th of April**.

We've made it easy for you to book your easyJet content via the Sabre System.

- You can use your existing Sabre formats
- View easyJet content within your normal availability display
- Combine easyJet flights with other airline segments in the same reservation
- Book and fulfill ancillary services such as baggage charges and speedy boarding
- Integrate bookings into your backoffice workflow

Your agency has already been activated to receive this content so all you need to do is **BOOK!**

All the information you need on how to book easyJet is available in the [easyJet Community](#) on Agency eServices or contact your Sabre Sales Executive.

Kindest Regards

Zenon NDC Ltd
